## 6 Things You Should Be Doing On LinkedIn TODAY...

**Look For Prospects** - accept new connection requests **ONLY** if they are in your target market. Look at the connections of your connections [your 2nd level]

**Invite 10 To Connect** - search for your target market and invite ten of them to connect with you

**Nurture The Relationship** - have a non-salesey conversation and build trust and rapport the way you would in person

**Key Questions To Find A Need** - ask whatever questions you would normally ask to see if there's a need for your product/service

**Explain How You Can Help** - if you uncover a need and your connection wants help, take it offline

**Diary The Appointment** - schedule a meeting/call and invite them to become a client

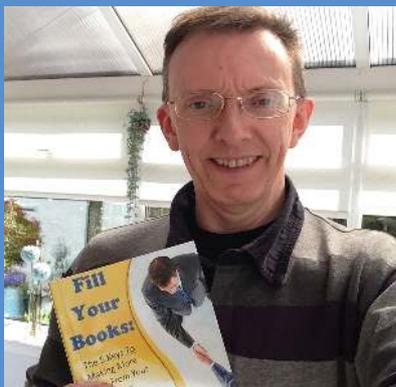

# Get 3-5 New Clients Per Week From LinkedIn...

Our clients see a sharp increase in connections, post comments and likes, connection requests and profile views the very next day after they use the LINKED process. Before they implement these 6 steps they typically have a LinkedIn Profile that is basically a CV... and they don't HONESTLY believe that LinkedIn works in the REAL WORLD.

Thanks to Covid19 client numbers have dropped, cash flow is an issue and the world has gone online. In B2B that means LinkedIn activity has SOARED. So here's what we do when you join our programme:

- 1] We work out the exact numbers of connections, leads & sales you need
- 2] We search for your ideal target clients on LinkedIn and set it up to send you leads for FREE!
- 3] We polish up your Profile to make sure prospects like what they see

Want to be our next client? - let's hop on the phone so we can map out your LINKED process and see if we can help you get there...
